

REMARKS

The specification has been amended to include priority information.

Claims 2, 3, 4, 5 and 6 have been amended for purposes of complying with United States patent practice, e.g. to eliminate multiple dependencies, provide proper antecedent basis and correct typographical errors. No new matter is included in these amendments.

It is respectfully requested that these amendments now be entered, and that prosecution on the merits of this application now be initiated. If, however, for any reason the Examiner does not believe such action can be taken, it is respectfully requested that he telephone applicant's attorney at (908) 654-5000 in order to overcome any objections which he may have.

If there are any additional charges in connection with this requested amendment, the Examiner is authorized to charge applicant's Deposit Account No. 12-1095 therefor.
